

Husqvarna®  
READY WHEN YOU ARE

# PROFESSIONAL BATTERY PRODUCTS

GET MORE DONE  
WITH LESS NOISE

It's time to switch to Husqvarna professional battery solutions.

A person wearing a blue long-sleeved shirt and brown work pants with a grey and orange tool belt. They are holding a grey bag and an orange helmet. The background is a blurred outdoor setting with greenery and a metal railing.

# FUTURE BUSINESS GROWS IN SILENCE

As cities grow, so do their green spaces – and the expectations of the people who live near them. Add increasingly stringent regulations around noise and pollution and it's clear there's a need for cleaner, quieter green space management.

## QUIETER. CLEANER. MORE PRODUCTIVE.

With zero direct emissions, no smoke and low noise, today's Husqvarna battery equipment offer performance equivalent to our traditional gas equipment; without disturbing the neighborhood or breaking the regulations.

They allow you to win new business and contracts in a stricter regulatory environment, and they let you and your people start earlier and finish later for more billable hours every day. Add low maintenance and operating costs to those longer working hours, and the benefits of battery-

powered equipment are clear: they help you make more money.

Since every charge costs a fraction of refueling a gas tank, you will repay your investment in Husqvarna battery equipment sooner than you think. Then you just have to enjoy the benefits of clean, quiet, more profitable Husqvarna performance.

So get ready for a new world. Get ready to switch to Husqvarna Battery-powered equipment.

### LOWER RUNNING COSTS

Our battery machines pay for themselves quicker than you might think. And once they do, you save money every time you charge them up.

### LESS NOISE

Quiet, electric motors also mean you can start working earlier and finish later – even in areas with strict noise regulations. Your days are more productive, you get more billable hours and it's easier to balance all your customers' needs.

### NO FUMES

Husqvarna battery powered motors offer performance equivalent to gas-powered engines, without the harmful emissions and fuel consumption.

# **BUILT TO PERFORM. READY TO DELIVER.**

The future of our battery series is found in our company's past – in our tradition of exploring new technologies, materials and innovations to make better equipment which helps professionals be more efficient every day. Generations of expertise, plus tough testing and constant refining, helped make our new professional battery range the very best it can be.

#### ONE BATTERY

Every Husqvarna battery works with every Husqvarna product. Quick to charge and even quicker to swap, they allow you to choose the battery combination perfect for you and the way you work.

#### HIGH PERFORMANCE

Strong, durable motors, superior power to weight ratio and smart features give you the power, performance and comfort you need for all-day, every day productivity. Almost all 500 series machines feature a motor designed in-house by Husqvarna to match motor and machine perfectly.

#### EASY TO USE

Low weight, low vibrations and easy, intuitive controls make our battery-powered equipment ergonomic and easy to use. Which helps your people stay happy, healthy and productive – and makes business more profitable.

#### ALL WEATHER USE

Keep on working, come rain, wind or sunshine thanks to high weather protection standards.

## HUSQVARNA PROFESSIONAL BATTERY EQUIPMENT. SMARTER WORKING IN ANY WEATHER.

Husqvarna's range of battery-powered equipment covers just about every green space task in any weather, from pruning to trimming, mowing to blowing. Each piece of equipment is the result of over a decade of research, fine tuning and insight into what you need and want from battery-powered machines: safety with optimized performance plus unbeatable comfort.

Husqvarna steps proudly into the future with the new Professional Battery series, opening new opportunities for your business to achieve sustainable success. Join us. We're ready when you are.

**CUT AWAY  
THE STRAIN,  
SMOKE AND  
NOISE.**

## QUIETER, LIGHTER, CLEANER WITH HIGH CUTTING SPEED FOR LONGER SHIFTS IN MORE COMFORT.

Husqvarna's low-weight, low vibration hedge trimmers and line trimmers are designed to reduce physical strain. And their powerful battery options – from lightweight integrated batteries to high capacity backpacks – eliminate exposure to harmful smoke and fumes. Tough, durable and incredibly reliable, their low noise operation lets you start work earlier and finish later, even in noise-sensitive areas. Husqvarna's cordless solution means cables don't get stuck in branches, and allow you to swap instantly from hand to hand for more flexibility, less downtime and more productive shifts.

### HUSQVARNA 520iHD60

#### LIGHTWEIGHT WITH GREAT BALANCE.

Agile, lightweight and efficient hedge trimmer with 24 in cutter bar. Balanced design ensures efficient work, even during long shifts. Rear handle can be twisted for easier vertical trimming. Economy savE™ mode extends battery life for more runtime between charges.

- 8.4 lbs. excl. battery
- 4000 cuts/min
- 24 in cutter bar
- savE™ for maximum runtime
- Pivoting rear handle

### HUSQVARNA 520iHE3

#### REACH THAT LITTLE BIT HIGHER.

Up to 11.5 ft reach enables easy and comfortable trimming of wide, high and low hedges. 22 in high-speed cutter bar for unbeatable power and performance. Lightweight, balanced design with adjustable cutter bar facilitates efficient work even during long shifts.

- 9.2 lbs. excl. battery
- 4000 cuts/min
- 22 in cutter bar
- savE™ for maximum runtime
- Transport mode

### HUSQVARNA 520iLX

#### CLEAR A PATH TO SUCCESS.

Effective, lightweight trimmer with intuitive keypad for easy starting and stopping. Twin-line cutting system with Tap-n-Go function enables quick and easy line feed, while two-way trimmer head rotation means less grass on walkways, walls and other obstacles. Delivered with T25B trimmer head. Optional steel blade for heavy brush cutting.

- 6.6 lbs. excl. battery
- savE™ for maximum runtime
- Two-way rotation trimmer head
- Adjustable handle
- T25B trimmer head
- 3-tooth grass blade (optional accessory)

# MONEY GROWS ON TREES.

## **HIGH PERFORMANCE, SAFETY AND LESS STRAIN HELP PRODUCTIVITY.**

Husqvarna's lightweight, low-vibration battery saws can make all the difference when every pound counts. They are designed for maximum performance with safety in mind: easy on/off, an intuitive user interface for a clear status view and low noise for easier communication with others. And not at least, longer working shifts in noise-sensitive environments without annoying idle driving.

## HUSQVARNA T535iXP®

### FOR FULL-TIME ARBORISTS.

Efficient, lightweight and well-balanced top-handle chainsaw for pruning and small crown reduction. Compact design, easy start/stop and high center of gravity ensures easy maneuverability and work, even in tough conditions. High chain speed contributes to smooth, efficient cutting, while the effective inertia-activated chain brake improves safety.

- Bar length 12 inches
- Chain speed 66 ft/s
- 5.3 lbs. excl. battery
- savE™ for maximum runtime

## HUSQVARNA 535iXP®

### HIGH POWER. LOW WEIGHT.

Powerful chainsaw ideal for light pruning and tree removal where you need the extra reach a rear handle saw offers. Well-balanced design, low weight and high center of gravity ensure extra maneuverability, while the inertia-activated chain brake makes work safer. High chain speed enables smooth, efficient cutting.

- Bar length 14 inches
- Chain speed 66 ft/s
- 5.3 lbs. excl. battery
- savE™ for maximum runtime

## HUSQVARNA 530iP4

### HIGH CHAIN SPEED FOR EFFECTIVE PRUNING.

Robust pole saw for productive tree care. Slim saw head, low weight and well-balanced design mean low vibration levels and greater efficiency, while the high (66 ft/s) chain speed increases productivity.

- Bar length 10 inches
- Chain speed 66 ft/s
- 7.4 lbs. excl. battery
- savE™ for maximum runtime

## HUSQVARNA 530iPT5

### TELESCOPIC POLE SAW WITH UP TO 18 FT. REACH.

Well-balanced ergonomic design with low weight, low vibration levels and slim saw head. The saw head design and bar position gives the best possible view for the operator.

- Bar length 10 inches
- 11 lbs. excl. battery
- Chain speed 66 ft/s
- savE™ for maximum runtime
- Telescopic

## ACCESSORIES

### Arborist eyelet

Eyelet with unique design, made for arborists who use a standard chainsaw. Offers a safe way to connect the chainsaw to the chainsaw strap. Has an overload release.

### Chainsaw strap

For connecting the chainsaw to a belt. Has an elastic design.

### Technical Forest Helmet

A robust, yet lightweight helmet with a completely thorough design - packed with smart solutions that lessen the weight.

### Bars and chains

Husqvarna's wide range of cutting attachments are designed to achieve high performance and to optimize the saw's features. That is why our bars and chains are developed especially for Husqvarna's saws.

## THE QUIETER, MORE SUSTAINABLE PATH TO CLEANER PATHS AND SPACES.

Your customers love clear pathways, lawns, parks and green spaces. But they don't always like the noise and smoke it can take to get them. Here's the answer: Husqvarna battery blowers. Powerful, quieter and free from direct emissions, they're a more sustainable, customer-friendly way to clear leaves and other debris fast. And because they help you start work earlier and finish later with no refueling, low maintenance costs and a variety of light yet powerful battery options, you, your employees and your customers will love them too.

HUSQVARNA 436LiB

### TOTAL FLEXIBILITY. POWERFUL PERFORMANCE.

Lightweight, comfortable and powerful blower for use with either backpack or integrated battery. Low weight, well balanced design and smart features including different tube options. Excellent for noise sensitive areas and demanding indoor tasks. Suitable for either left- or right-handed operation.

- 81 dB(A)
- 110 mph
- 385 cfm
- 5.3 lbs. excl. battery
- Cruise control and boost mode

**BLOWS  
THE  
REST  
AWAY.**

# BATTERIES

## **FLEXIBLE, POWERFUL PERFORMANCE. WHATEVER THE JOB.**

The Husqvarna BLi battery system is the most flexible on the market today, with performance second to none. Just charge up, plug in and switch on for peak performance with no loss of power: they're always good to go.

Choose lightweight batteries, load up a battery belt with the power to work all day or maximize performance and autonomy with a high capacity, comfortable backpack solution. With quick charging, easy swapping, long runtime, they're designed to work the way you do. A

built-in cooling system allows them to be used in hot environments, and they are suitable for all-weather use. Add the ability to charge more than 1500 times and it's easy to see why our batteries are truly the power behind Husqvarna battery-powered equipment.

# THREE WAYS TO CONNECT. YOU CHOOSE.

**1 MACHINE + BATTERY**  
for maximum agility and perfect  
balance with long run times.

**2 MACHINE + BATTERY +  
FLEXI BELT + ADAPTER**  
Carry just the extra batteries you  
need, plus space for equipment  
and accessories.

**3 MACHINE + BACKPACK  
BATTERY + ADAPTER**  
Work all day without worrying  
about your battery.

HUSQVARNA  
BATTERY FLEXI BELT **NEW**  
**HOLDS UP TO THREE EXTRA BATTERIES  
AND ACCESSORIES.**

Makes long workdays comfortable and productive far from electrical outlets. Connect your product to a battery in the belt for less strain on your arms. Made from durable materials to cope with the toughest work – and easy to attach equipment and other accessories.

HUSQVARNA BLi950X **NEW**  
**LONG-LASTING POWER FOR  
TOP-CLASS PERFORMANCE.**

Very high-capacity, weatherproof backpack battery enabling you to work with fewer breaks and greater efficiency. Ergonomically-designed adjustable harness with wide, padded straps and hip belt for maximum comfort. Easy to store on its feet.

■ Capacity 26.1 Ah

■ Weight (incl. harness):  
17.4 lbs.

HUSQVARNA BLi550X **NEW**  
**BACKPACK PERFORMANCE WITH GREAT  
COMFORT.**

High-capacity, weatherproof backpack battery enabling you to work with fewer breaks and greater efficiency. Ergonomically-designed adjustable harness with wide, padded straps and hip belt for maximum comfort. Easy to store on its feet.

■ Capacity 14.4 Ah

■ Weight (incl. harness):  
15.7 lbs.

HUSQVARNA BLi100/200/300  
**HIGH POWER. LOW WEIGHT.**

Husqvarna batteries provide excellent runtime and market-leading capacity to weight ratio. They all feature a 4-LED charge level indicator, all-weather operation and excellent cooling. Rechargeable more than 1500 times.

■ Capacity 2.6/5.2/9.4 Ah

■ Weight: 1.9/2.9/3.9 lbs.

Husqvarna  
V1600P

# CHARGERS

HUSQVARNA QC500

**FOR SUPER-FAST CHARGING.**

Charges BLi300, BLi550X and BLi950X 50% faster than the QC330 charger. Active battery cooling for minimum charge time and longer battery life, plus 2-LED status indicator and high-power output.

## LEADING THE CHARGE.

From single workshop chargers to field chargers, quick chargers and more, Husqvarna has the solutions to keep your battery-powered equipment up and running. Our smart charging algorithm quickly charges the battery up to 80% – in as little as half an hour – before it continues with the last 20%. And a wide range of accessories helps you work the way that suits you best.

HUSQVARNA QC330  
**OPTIMIZED FOR ALL  
BLi-BATTERIES.**

Quick charging unit with 2-LED status indicator and active battery cooling for minimum charge time and longer battery life.

HUSQVARNA QC80F  
**FIELD CHARGER.**

For charging in 12 V car/truck outlet in the field.

HUSQVARNA QC80  
**STANDARD CHARGER.**

With LED status indicator.

# HOW LONG WILL THE BATTERY LAST?

## WORKING TIME ON ONE CHARGE

		535iXP®			120i		T535iXP®	530iPT5/ 530iP4 / 115iPT4	520iLX	
		CARPENTER	PRUNING	LOG CUT			PRUNING	PRUNING	LIGHT	TOUGH
										
	<b>BLi300</b>	5 h 35 min	2 h 15 min	1 h	—	3 h 55 min	3 h 30 min	2 h 30 min	1 h 15 min	
	<b>BLi200</b>	3 h 5 min	1 h 15 min	35 min	45 min	2 h 10 min	1 h 55 min	1 h 25 min	40 min	
	<b>BLi100</b>	1 h 35 min	40 min	15 min	—	1 h 5 min	50 min	40 min	20 min	
	<b>BLi20</b>	2 h 25 min	1 h	25 min	35 min	1 h 40 min	1 h 30 min	1 h 5 min	30 min	
	<b>BLi950X</b>	15 h 40 min	6 h 20 min	2 h 50 min	3 h	11 h	9 h 40 min	7 h	3 h 30 min	
	<b>BLi550X</b>	8 h 40 min	3 h 30 min	1 h 30 min	1 h 30 min	6 h	5 h 20 min	3 h 50 min	1 h 50 min	

The runtimes are up-to-times and correspond to work time using saveE™: actual work, basic maintenance and movement /climbing needed for generic operations.  
\*Requires BLi backpack batteries.

The working time available with a fully charged battery depends on three variables: the capacity of the battery, which machine the battery is used with and if you're doing light or tough cutting/trimming. The chart shows an

estimate of the operating time you can expect from your Husqvarna battery equipment in different work situations.

The charging time for a fully discharged battery depends on the capacity of the battery and which of

the chargers you use. In many cases the charging time will be shorter than the working time. This means with two batteries available, you can work continuously – one battery operating and the other battery charging.

### CHARGING TIME FOR DIFFERENT BATTERIES AND CHARGERS

# IF YOUR EQUIPMENT COULD TALK, WHAT WOULD IT TELL YOU?

Where on earth did we leave that trimmer? When was it last serviced? And don't we have any more of them? Who knows? These are all yesterday's questions – questions that you can now answer quickly and confidently, thanks to Husqvarna Fleet Services™. With the intelligent sensor, you'll not only be able to find where you last had every piece of equipment, but also survey its overall status and how much it's been used to learn when it's time to service or replace it. Quick, convenient and simple – leaving you in full control, wherever you are.

Keeping track of your equipment also allows your business to improve your routines and start working based on real insights, instead of guesswork. This means a smoother, simpler workday – which translates into increased productivity. The future of landscaping is here. We call it Husqvarna Fleet Services™.

# JUST PUT ONE OF THESE ON EVERY PIECE OF EQUIPMENT

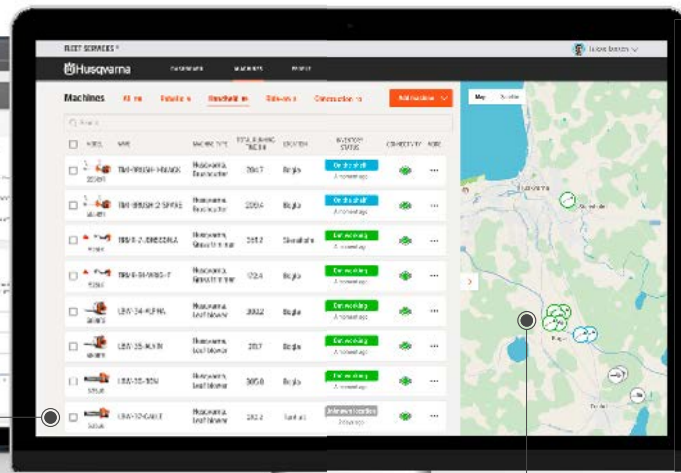

Keeping track of your equipment has never been easier. Just attach Husqvarna sensors, and you'll always know where your machines are, how much they've been used, when they need service and much more. You always have total control from your computer, tablet or smartphone.

## DASHBOARD OVERVIEW | YOUR BUSINESS – AT A GLANCE

Just log in to Husqvarna Fleet Services™ to get a birds-eye view of all your equipment – how many machines you have of each type, how much they have been used lately, if any of them are due for service and more. By having a look at the charts, you can quickly tell how your business is performing and identify room for improvement.

## SERVICE OVERVIEW | SERVICE HISTORY AND NOTIFICATIONS

Husqvarna Fleet Services™ alerts you when a machine is due for service, based on actual engine hours. This way, you can do the preventive maintenance in time, rather than wait until you need to repair it (or service before you actually need to). You also have access to the complete service history for each machine, making it easier to troubleshoot and to know when it's time to invest in a new one.

## INVENTORY CONTROL | ALL YOUR EQUIPMENT IN ONE PLACE

Don't rely on paperwork. With Husqvarna Fleet Services™, you just check the inventory list, and you know exactly how many machines you have of each type. Give them unique names, and you can easily tell which is which. You can add sensors to all sorts of equipment, even machines from other manufacturers.

## MACHINE LOCATION | TRACK THEM ALL ON THE MAP

Always keep track of where you last had your equipment. As soon as a machine with a sensor is within Bluetooth distance from the app, its location is registered. So whenever you're looking for a machine, you just check the map to find out if it's in the storage, away for service or out working. Our robotic mowers have built-in GPS and connectivity, allowing them to be tracked constantly.

## MACHINE STATISTICS | SEE WHEN AND HOW MUCH YOU'VE USED IT

Since the sensors track the engine hours of every machine, you always know exactly how much they have been used since you bought them. You also check the workday log to get a detailed view of how many hours they have been used each day.
